Responsibility:	Manager, Procurement Services
Effective Date	July 25, 2014
Revision Date(s):	N/A

Overview

The Canada Foundation for Innovation (CFI) is an independent corporation established in 1997 by the Government of Canada. The Foundation's goal is to strengthen the capability of Canadian universities, colleges, research hospitals, and other not-for-profit institutions to carry out world-class research and technology development. By investing in research infrastructure projects, the CFI supports research excellence and helps strengthen research training at institutions across Canada.

Procurement Services oversees the acquisition of goods and services on behalf of the University. For CFI projects, the role of Procurement Services is one of a consultative nature assisting the Principal Investigator (PI), the Research Grants Officer (RGO) and other members of the Financial Services team. The process is intended to support the PI with the procurement of required goods and services while ensuring that applicable University and CFI policies and procedures are followed. The process will also ensure that applicable Federal and Provincial legislation governing the acquisition of goods and services is adhered to.
